

Softlinx, an Oracle Certified Gold Partner, resells Oracle ECM products, develops and markets Oracle Add-on solutions, and provides Oracle ECM Consulting and Implementation services.

ORACLE PRODUCTS & SOLUTIONS

- Oracle Enterprise Content Management (ECM)**

Oracle ECM is the industry's most cost-effective and complete content management platform that manages and delivers the entire spectrum of unstructured content. Oracle ECM offers a rapid return on investment (ROI) by delivering the benefits of streamlined processes, increased productivity, unified infrastructure and hot-pluggable configuration flexibility.

- Oracle Content Server Document Connectors**

- o **FAX CONNECTOR** – Send and receive faxes using Softlinx' ReplixFax fax server from within the Oracle Content Server and Oracle Applications

- o **SCAN CONNECTOR** – Scan paper into the Oracle Content Server from any multi-function printer (MFP) with "point-of-scan" indexing using eCopy ShareScan OP and Softlinx' eCopy Scan Connector for Oracle Content Server

- o **FILE COMPARE CONNECTOR** – Compare different versions of Word, PDF and other documents from within the Oracle Content Server using Softlinx' File Compare Connector

SOLUTION DELIVERY METHODOLOGY

Softlinx uses a multi-phase solution delivery methodology called "4-D" methodology that has been proven for previous Softlinx successes with our client engagements. Throughout all phases of the project, Softlinx' consultants work with our client as a team to deliver mutually agreed-upon milestones and deliverables to our customer's satisfaction.

"Softlinx provided both Oracle ECM implementation and outsourced management services as a one-stop solutions partner to our satisfaction for our global web content management project..." - CIO, Accion
