*For Immediate Release*

### **Softlinx' ReplixFax product line supports software-based, Fax over IP with Cantata's Brooktrout SR140**

**North Billerica, MA (February 26, 2007)** –Softlinx Inc., an industry leader in enterprise fax and document process automation solutions announced today support for Cantata Technology's Brooktrout SR140, a software-based, real-time Fax-over-IP (FoIP) platform.

Softlinx' award-winning ReplixFax fax server solution certified with Cantata Technology's Brooktrout SR140 allows companies to deploy all software based network fax solution and leverage their single IP network to unify voice, fax and data communications to reduce the total cost of document communication within the enterprise. The ReplixFax server software combined with Brooktrout SR140 supports implements T.38 protocol that provides "real-time" fax communication over an IP network, eliminating the need for a fax board.

"In addition to our support for Fax over IP in conjunction with Brooktrout TR1034 fax board, the Brooktrout SR140 based FoIP solution meets our customer's need to deploy a 100% software FoIP solution," said Frank Woo, COO of Softlinx. "They can now easily add fax management capabilities to their Voice over IP network to further utilize their single IP network."

The Fax over IP support is available for all ReplixFax products including ReplixFax fax server and intelligent modem gateways (IMGs). For more information, contact Softlinx at 1-800-899-7724 or [sales@softlinx.com](mailto:sales@softlinx.com).

#### **About Softlinx**

Softlinx provides enterprise content management, network fax and e-document delivery software and solution consulting services to major corporations worldwide and both local and federal government customers. Softlinx solutions enable document process automation, and fast integration of paper-based and electronic information into existing systems and business processes. Softlinx customers benefit from fast, quantifiable return-on-investment (ROI) by improving business efficiencies and eliminating costs associated with manual efforts of handling unstructured document information. Founded in 1993, Softlinx, Inc. is a privately held corporation headquartered in North Billerica, MA.
