Softlinx Becomes an Oracle Platinum Partner in OPN Specialized Program

Softlinx became one of the first OPN Specialized Platinum level partners, when Oracle launched all new OPN Specialized Program on December 2, 2009 to replace the Softlinx' Oracle Certified partner status.

North Billerica, MA (December 16, 2009)—Softlinx Inc., a leader in e-document delivery and content management solutions, today announced its status as Oracle Platinum Partner in the Oracle® PartnerNetwork (OPN) Specialized program.

"With OPN partnership at the Platinum level, Softlinx will benefit from maximum recognition within Oracle, access to potential customers and Oracle's technical support resources," said Dr. Hikyu Lee, CEO of Softlinx, "Softlinx is committed to strengthening Oracle partnership and our expertise in Oracle ECM and Enterprise 2.0 solutions."

The all new OPN Specialized Program was officially launched on the 2nd of December, 2009 to replace previous OPN partnership program levels. The OPN Specialized Program was designed as the result of numerous acquisitions completed recently and over time the old Oracle Partners Network structure couldn't accommodate all the different kinds of partnerships that Oracle inherited. The Oracle designed OPN Specialized will simplify the search of a partner for Oracle internal staff and Oracle customers on one hand while it also lets partners distinguish themselves amongst the rest by technical areas and types of services and products.

About Softlinx

Softlinx is a leading provider of electronic document delivery and content management solutions to major corporations worldwide. With its ReplixFax enterprise fax server, DocuRouter intelligent document delivery platform, Document Connector products, and Oracle ECM consulting services, Softlinx delivers fast, quantifiable return-on-investment (ROI) to its customers by improving business efficiencies and eliminating costs associated with manual inefficiencies of handling unstructured content. Founded in 1993, Softlinx, Inc. is a privately held corporation headquartered in North Billerica, MA. For more information, visit www.softlinx.com.

About Oracle

Oracle provides the world's most complete, open, and integrated business software and hardware systems, with more than 370,000 customers—including 100 of the Fortune 100—representing a variety of sizes and industries in more than 145 countries around the globe. Oracle's product strategy provides flexibility and choice to our customers across their IT infrastructure. Now, with Sun server, storage, operating-system, and virtualization technology, Oracle is the only vendor able to offer a complete technology stack in which every layer is integrated to work together as a single system. In addition, Oracle's open architecture and multiple operating-system options gives our customers unmatched benefits from industry-leading products, including excellent system availability, scalability, energy efficiency, powerful performance, and low total cost of ownership.
